

Our client, a worldwide established medical device specialist, is currently recruiting a **Clinical System Developer** for their Healthcare Department.

Besides updating the software and supporting the Clinical Specialists with your IT and medical knowledge, you will be responsible for adding new information to the system and give technical support to your colleagues.

This full time vacancy in the West of London (outskirts) is ideal for RGN's who would like to work within a none hospital environment or care setting.

Requirements:

- 1-2 year clinical experience (Hospitals or Nursing Homes)
- good IT skills
- you have to enjoy working with a computer
- being able to work within a team
- adapt to new situations
- Candidates must have a valid NMC Pin Number

Offer:

- very attractive salary
- very good benefits scheme
- full time hours
- strong supportive system

We are looking forward to receiving your CV.
